Have only 'played' for a short while, but so far, the LOL's have been thick and fast, and that's just reading the characters names:-) buy it, more than worth the dosh for the laughs if nothing else ( i'm a 55 yr old woman, guys will love this! ). Very funny game so far :). What can I say, another brilliant, witty fun little RPG with laughs throughout and all for under \u00a31, Excellent Value! Crankage Games, you my friend are a comedy genius! Bring on the 3rd Quiver\u2665\u2665\u2665\u2665\u2665game!. By far the funniest of the collection cause i literally couldn't stop laughing time after time! best thing i've put time into in 2018 and highly suggest it.. funny as ♥♥♥♥!.. on to figure out all other other endings now =P. This game, is literally the most fun i have had playing a video game in years! i strongly reccomend giving this title as well as the rest of CRANKAGE GAMES titles a play through! you will not be disappointed!. AMAZING GAME. A very very funny game. I have only completed two of the three routes but i am looking forward to what is next for the Quiver♥♥♥♥♥s series.. So, you're looking at this game, huh? Guess you're looking for a review, eh? Look no further!

I won't lie, the game is short. It has multiple endings. I likes it a lot! And I am not usually a fan of short games. Crankage really outdid themselves with this one. The humor is crude, the landscapes are beautiful and the dialogue is nothing short of fantastic!

(Not spoiling anything here) Finally, do yourself a favor if you pick this game up: Read the tombstones. You won't regret it!. OMFG , just when the first game rubbed you so well you didn't think you couldn't handle more there's a second one. Just as ♥♥♥♥ing funny and there are some extra add ons that really made me happy just like the first if you arnt playing through the bundle you ... yes you! You are a loser

---

Order of gameplay is Metal as ♥♥♥♥, chronicles then terrible tale. I played them in reverse order.

A lot of metal references, a lot of smut humour.

A short, bite-sized game that you can stream in one hit very easily.

3 endings.. Absolutely amazing game. Short, sweet, deeply and incredibly inappropriate... not to mention twisted... and genuinely vulgar at times. Heck, the three separate endings and easter egg(s?) alone make it worth more than such a piddly little amount. Thank you, Crankage, for blessing us all with your deeply, deeply messed up imagination.. I have only played this game a few hours ....but I immediately demanded a refund. OH not a refund from this game....but a refund for any other game I purchased all year. THIS is the game you should all be playing. It was funny and very well done. An excellent Indie game full of charm, personality, and more♥♥♥♥♥♥jokes than you can shake a bag of♥♥♥♥♥♥♥♥♥♥at. Why are you still reading this? Go buy this game now, uninstall Fortnite, and play Quiver♥♥♥♥♥♥s. Third game in the Quiver D!ck's epic saga, and it did NOT disappoint. I pray this developer keeps making games. The humor was lewd, crude, VERY adult, and very METAL. There is psychosis here and it's a beautiful thing! This is the first in the series that actually made me not only laugh, but shed a tear: Part near the beginning, Graveyard scene. Do yourself a favor and look at ALL the graves. If you are a rock/metalhead in any respect, you will be treated to what is obviously a love letter from another metalhead to those they love, and it's awesome. All in all this game was just an amazing & hysterical trip start to finish. No actual battles in this one either, it plays more like a visual novel, but the battles aren't missed as it's stuffed full of the same awesome and gaudy humor and puns as the last 2 games. I binged the first 3 games in ONE afternoon/evening, They were just hard to put down. Forget waiting for a sale, buy the series bundle and ROCK! (it's not exactly expensive folks ;-)) If I had any complaint, without the fights, this game does seem a bit short (less than 2 hours i my play), but for less than a price of a fast food lunch, Well worth it!. It's a really funny game fitting my sense of humor, but, unfortunately, it's VERY short and linear. It also doesn't have any fighting system. You will definitely not spend more than one hour on this.

If you are looking for a short laughter during a Steam sale, this game is good for you. However, for RPG fans this is not a real video game. I hope the devs will make bigger games in the future so that you can be proud to have played a real RPG with a vulgar sense of humor.

EDIT: This is more like the spin-off of Metal as ♥♥♥♥. I just found out that the "main series games" have much more content, about which I'm very glad.. Quiver♥♥♥♥♥♥s Terrible Tale runs a similar playtime to the first, and it's still a fun, quick game to bask in some serious rock nostalgia of those lost and those still rockin it out. Packed full of crude and crazy jokes, and in my opinion, a more streamlined design to fighting, the Terrible Tale is a must have. Don't hesitate to pick up this title for a good laugh and a great time.. This is the first of the bundle of games by this developer that I played (PS- buy the bundle- 100% worth it)

The ENTIRE playthrough had me in stitches. There is hidden material in there, and I need to go through it at least twice more to be able to see all the content.

GREAT STREAMING material- just narrate and entertain- your reactions to the "game" itself is entertainment on top of the material itself- which will have you in stitches (or offend you.. you know, if you're a snowflake-- which in the beginning he says it isn't for that type- which already had me in stitches before it even started started)

Did I mention buy the bundle? Awesome story- so many throwbacks and satire. Just....

wow.

<3. What can I say, another brilliant, witty fun little RPG with laughs throughout and all for under \u00a31, Excellent Value! Crankage Games, you my friend are a comedy genius! Bring on the 3rd Quiver\u2665\u2665\u2665\u2665\u2665\u2665game!. I seriously adore this developer!! He deserves all the love and support! As far as the game goes, it's is a shorter game, but worth the change that it costs! Be warned though, it has some major adult themes, so this is very much not for children, maybe even not for teens.... But if you are a consenting adult and you find adult humor hilarious, than you will really enjoy this game! Go!! Buy it now!!!. So, you're looking at this game, huh? Guess you're looking for a review, eh?
