[Umax Astra 5800 Scanner Software Driver Free 13](#)

The screenshot shows the Windows 10 Control Panel window open to 'System and Security > System'. The Device Manager window is active, displaying the 'Update Driver Software - USB Scanner' wizard. The wizard prompts the user to select a manufacturer and model. An 'Update Driver Warning' dialog box is overlaid on the wizard, with a yellow warning icon and the text: 'Installing this device driver is not recommended because Windows cannot verify that it is compatible with your hardware. If the driver is not compatible, your hardware will not work correctly and your computer might become unstable or stop working completely. Do you want to continue installing this driver?'. The 'Yes' button in the warning dialog is circled in black. The 'Next' and 'Cancel' buttons are visible at the bottom of the wizard. The Windows 10 taskbar and Start menu are also visible.
